This section of the Chilhowean was severely damaged by the fire that destroyed Fayerweather Hall. The pages were near completion when the building was burned causing all of the original pictures to be lost. The pictures that are in this section are replacement ones provided by the photographer and some recovered negatives. There are still some pictures missing and I apologize for that. I want to thank those that helped gather pictures and those that donated candids, especially Brian Gossett and Erin Palmer. I also want to thank Tena Overturf in the Social Science Division for helping me with the Faculty pictures. I appreciate all the help and support that I have received in piecing the pages back together.

Senior Gift

The Class of 1999's Senior Gift is the construction of a sidewalk connecting Fayerweather Hall and Beeson. This area of grass is a highly traveled area and the sidewalk will prevent wear on the grass and allow students a paved pathway to Fayerweather.

Editor's Page

When I sat down to write this, I was not sure what to say. I have a lot of people to thank, but more importantly I have a short story to tell and a point to make.

I will start with my thanks. First and foremost to the Lord above for without His guidance and strength I could have never made it through this year. This year has truly shown me that all things ARE possible with Jesus Christ in your heart and that He will never put more on you than you can possible bear. Second, I would like to thank my parents. They have always supported me in everything I do and for that I am eternally grateful. Third, I would like to thank my staff. Allison and Gio — thanks for all of your help and support. Monica — I cannot wait to work with you next year. Ashley and Chrissy — thanks for everything. I will miss you greatly next year. Lindsay, Gwen, Lori, Elise, Margaret, and Rachel — thanks for all your time and hard work. I look forward to working with you again. Next to Michelle — thanks for all of your faith in me. I do not know how I could have made it through the last couple of months without you. Fourth, I want to thank Manda. You have put a lot into this book without even being on staff. You will never know how much that means to me. Finally, to Joe — you are my beacon in the night because whenever I get lost you provide the light to guide me home. You have stood by me through thick and thin and I am truly indebted to you for that. Thanks for believing in me, even when I did not believe in myself.

Now on with the story . . . I was trying to think of something to write when I heard a song on the radio and it suddenly had a whole new meaning. The song was "Back Where I Come From" performed by Kenny Chesney and written by Mac McAnally. The song talks about the feeling you get when you think about where you come from. This song can have many meanings and interpretations, but for me the meaning is now. Right now is where I come from. I say this because ten years from now it is going to be this time period that has the most effect on who I will be in the future. I want to look back on this year and my entire college experience and be able to say "I am as proud as anyone cause that's where I come from."

The point to me in all of this is if this is where we come from, then I challenge everyone to make it worth while. Do what you think you cannot do. Support others in their quest for happiness. Strive to accomplish all of the goals you have set for yourself. You only live once so take time to enjoy it. This year has taught me so things and these are just a few. So to everyone I hope you will think about where you come from and think that one day Maryville College will be where we come from and to me that sheds a whole new light on things.
